

More than Simulation

About Siemens & Simcenter 3D

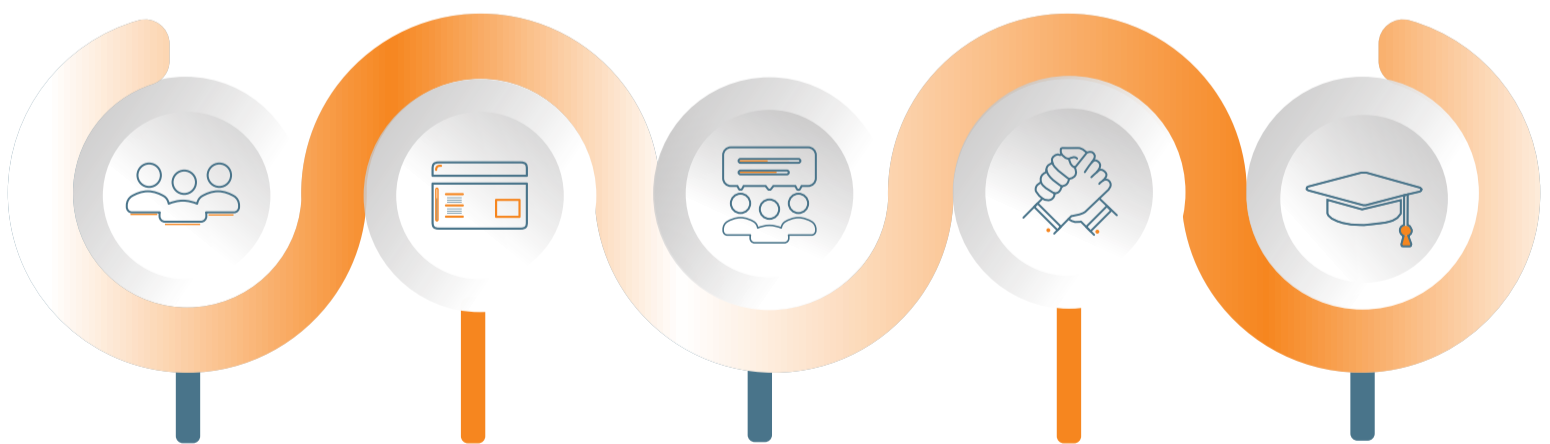

The Vision-Predictive Engineering Analytics	Most complete portfolio	Openness & scalability leveraging existing environments & processes	Industry expertise for enabling the greatest productivity	Strength & commitment to lead and innovate

- | | | | | |
|--|---|---|---|---|
| <ul style="list-style-type: none"> • More than traditional verification. • Predict Performance of critical attributes earlier. • Across the products lifecycle. | <ul style="list-style-type: none"> • Integrated multidisciplinary & multi-physics. • Direct coupling with test, 1D & data management. • Full traceability - change and configuration management. | <ul style="list-style-type: none"> • Open philosophy. • Simcenter as a central, unified environment. • Cognisant of previous investment. | <ul style="list-style-type: none"> • Siemens Global - use their own technology. • Expert people and best practices. • Industry specific. | <ul style="list-style-type: none"> • Leader in the drive for the digital enterprise. • Realise the benefit of a digital world. • Part of the bigger Siemens Group. |

Benefits & Differentiators

<ul style="list-style-type: none"> ✓ Reduce model preparation time. ✓ Shorten design-analysis iterations. ✓ Reduce development costs (use existing investments). ✓ Streamline development for on-time delivery. ✓ Validate and trace performance against product requirements (Test). ✓ Build better products (more efficient design trade offs). 			
	Direct multi-CAD geometry	Efficient workflows for simulation	Integration with Teamcenter
	Seamless geometry & integration with NX CAD	Pre/post-processor for most CAE solvers	Systems engineering focus

ESTE Q

Community of Practise

- Engage with other Simcenter 3D users.
- Quarterly network sessions.

Simcenter webpage

- Access all the latest Simcenter blogs, tutorials and upcoming training by our own team.

Community Forum

- Engage with other Simcenter 3D users.
- Presentations by our users.
- Leverage the knowledge of the user base.

Support

- Easy system to log support cases.
- Fast support from the local technical team.
- Direct communication.

Expertise

- Get access to our team of simulation experts
- Recognized Smart Expert Partner by Siemens PLM.
